Interested in hands-on data wrangling experience? Calling all graduate and undergraduate students to be part of DataFest.

The American Statistical Association (ASA) DataFest is a celebration of data in which teams of students work around the clock to find and share meaning in a large, rich, and complex data set.

After one day of intense data wrangling, analysis, and presentation design, each team is allowed a few minutes and no more than two slides to impress a panel of judges.

Prizes will be given for Best in Show, Best Visualization, and Best Use of External Data.

If you are interested in participating email Prof Eric Fox at eric.fox@csueastbay.edu by April 15th.
